ASCONSIT: We Specialize in IT Security

As IT security experts, we advise both large and medium-sized companies on every aspect of identity and authorization management. We can support you in implementing proven solutions, as well as designing and developing custom security solutions for your company. In this increasingly digital age, you can benefit from our expertise in IT security and comprehensive knowledge of SAP.

About us

IT Security with Vision

Since its inception in 2009, ASCONSIT GmbH has specialized in the design and implementation of sophisticated IT security solutions for both large and medium-sized companies. Today, we have employees in Europe and North America working with customers worldwide across a wide range of sectors to develop sophisticated and innovative IT solutions.

Striking an optimal balance between resource investment and results, we translate our customers' requirements into comprehensive guidance and reliable solutions for identity and access management, homogenization, and support. We deliver on high-quality, sustainable solutions. Drawing from decades of combined experience, our work on IT security environments is always driven by foresight and vision.

We would be delighted to give you the opportunity to get to know us!

Management

Arndt Spitzer (CEO)

As the founder and CEO of ASCONSIT GmbH and LLC, Arndt Spitzer is the strategic head of the organization. Developing individual software solutions was already a passion during his computer science studies at the University of Darmstadt – a calling to which he has remained true to this day. He started his own business at the age of 21, before his degree was even complete, working for well-known companies in the financial and insurance sectors in parallel to his studies. Later, he specialized in PKI software, cryptography, and security concepts. Working for SAP in Walldorf for many years, he gained experience with a range of software products and expertise in system architecture, software development and needs-based consulting. The creation of ASCONSIT GmbH in 2009 represented the realization of his long-term vision of a professional consultancy, allowing him to dedicate himself to the development and implementation of future-proof IT security solutions.

Team

Our strength lies in our team spirit!

Our work is driven by motivation and passion. A team spirit and positive working atmosphere are essential to our success and values.
