Partners

A robust network

Sopra Steria is a leading European tech player with 50,000 employees in nearly 30 countries and recognised expertise in consulting, digital services and solutions. The group offers comprehensive end-to-end solutions that make large companies and public authorities more competitive and efficient – based on in-depth expertise in a wide range of industries, innovative technologies and a collaborative approach. Sopra Steria puts people at the heart of its activities with the aim of leveraging digitalisation for its customers to create a positive future for all. The group generated revenue of €5.8 billion in 2024.
Sopra Steria has been supporting companies for more than 15 years in projects for the secure management of digital identities and access. The IAM strategy covers the entire process – from target architecture and technical design to the implementation of tailor-made solutions that meet regulatory requirements and efficiently secure business processes.
