SAP IdM maintenance ends – secure your future now!

Webinar on 25 September 2025

by ASCONSIT | Published on 28. August 2025

SAP IdM is going away – use your migration plan now!

The fixed end of support for SAP IdM in 2027 (extended to 2030 at an additional cost) is forcing companies to choose the right IGA successor solution at an early stage.

Why take action now?

Experience shows that the migration process can take up to two years. Anyone who starts in 2026 will hardly be able to complete it – or will have to pay multiple times. Risks of starting too late:

- High additional costs due to SAP support extension
- Too tight time frame with potential quality losses
- Overworked teams
- Compliance risks

The solution:

ASCONSIT GmbH (18+ years of SAP IdM experience) and Sopra Steria SE (15+ years of IAM expertise in complex industry projects) have teamed up with One Identity to develop a best-practice migration solution that is efficient, compliant with regulatory requirements and scalable. Our proven Day 1 migration provides clarity for implementation and further planning – quickly, securely and in compliance with regulations. Act now and register for our webinar. Together with Sopra Steria, we will present what a tool-based partial migration to One Identity looks like:

- Precisely tailored
- Timely
- Streamlined
- Future-proof

Webinar

You can obtain all the information you need about the replacement at our webinar on 25 September 2025 from 11:00 a.m. to 12:00 p.m.

Contents

Our webinar presents:

- How our ‘Day 1’ approach gives you a test environment for One Identity Manager – including your SAP IDM data.
- Why our 4-week migration preview at a fixed price is a real added value for your decision-making.
- What features and interfaces One Identity Manager offers for future-proof identity governance.
- How Sopra Steria, ASCONSIT and One Identity work together to guide you through the migration project – securely, efficiently and in an audit-proof manner.

Target audience

- IT managers
- IAM managers
- SAP architects
- Decision-makers for compliance and governance

Agenda

- Welcome & introduction to the partner network
- Our 4-step process model for test migration
- Insight into One Identity Manager
- Your advantages with Day 1 migration
- Live Q&A: your questions, our answers

Registration for the webinar, which is being run jointly by ASCONSIT and Sopra Steria, can be done via the Sopra Steria website.
