Solutions

Inspired by Enterprise, Designed for Enterprise

ASCONSIT is one of the pioneers working with SAP Identity Management since 2009. Over the years, we have acquired extensive expertise from a wide variety of projects, inspiring our own solutions - such as the ASCONSIT Dashboard for SAP IdM. Our custom developed solutions are designed as practical extensions of SAP solutions that increase your return on investment. We create environments that deliver added value on a daily basis for our customers around the globe. Regardless of size or industry, we provide our customers with the most relevant solutions for their business model, remaining true to the motto "inspired by enterprise, designed for enterprise."

ASCONSIT IdM StarterKITlight for SAP©

Upgrade now from Central User Administration (CUA) to SAP Identity Management (IdM) by taking advantage of our comprehensive consultancy services to achieve a simple and straightforward transition to a modern user administration system by SAP!
